

Wheels in Motion

News

Issue 12
April 2019

Coming soon!

It is an exciting chapter for Wheels in Motion, as we seek to put an additional four wheels in motion! We have purchased a small support vehicle, which will provide a place for 1-1 conversations, prayer and help with practical elements, such as filling in application forms for rehab. Watch this space, as this new season unfolds before us, and pray with us for Gods continued provision, wisdom and guidance.

Jim and Elspeth

We are Jim and Elspeth – Suzanne's Dad and Mum. Initially when we began to be associated with the bus – Wheels in Motion, we did so as parents determined to “look out for and help our wee lassie”. Suzanne was young, eager and passionate for this work, but we as parents were the ones taking baby steps.

Acts ch10v34 says God does not show favouritism – so why should we exclude others from care, love or compassion?

Over the years we have been part of the volunteer team. Jim collects furniture and distributes it, liaises with Dodds regarding mechanical bus issues, and chats while giving out food etc to the service users.

I help by getting the weekly food provisions and preparing and giving them out. While doing this I enjoy chatting to the service users too.

We have grown to love the people who attend the bus and class them as our friends. It is our desire to show love and compassion to all. It struck home that each one is someone's son, daughter, mother, father, husband,

wife. We can extend a welcome through a smile, giving out food or a hot drink, or just by listening.

Hopefully now we are showing we are not just looking out for our daughter, but for our friends too.

Big Kenny

I've been coming here for seven years. The bus gives me company. Somewhere for a cup of tea. I wish it could come more often, as I look forward to it all week. It's nice having people to talk to, who listen to me. I always ask for a private prayer, and I believe it helps me through the week.

Unsung heroes!

Unsung heroes... the only term we can use to describe these three guys, Colin, Jock and John. These guys work at Dodds, where we park the bus when it's not in use, and it is thanks to them that the wheels have stayed in motion so consistently. They maintain the vehicle, check it out when something seems not quite right, and often have it fixed before we know it was even broken! We can't begin to thank them enough for all that they do... thanks guys, we are so very grateful!
